# RETURN TO BERT HUGHES

Dear Student:

This yearbook represents an extensive effort on the part of your fellow students at Monte Vista School to provide you with pleasant memories of your school days. This has been a fine year with a fine student body in whom our faculty envisions the high development of those qualities of citizenship striven for by every generation in this great country.

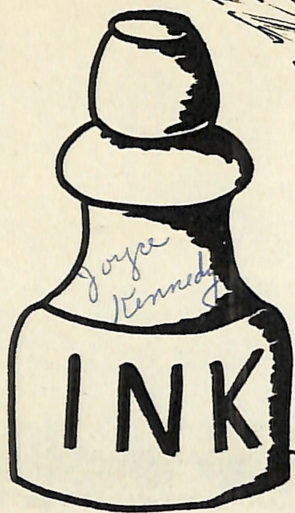

This has been an historic year in our lives. The birth of space science occurred, in reality, by the successful launching of earth satellites for the first time in the history of civilization. Our Community's growth has been rapid and has necessitated sound planning on the part of civic and school officials. Monticello Dam is now completed, as was the California Medical Facility. Extensive improvements at Travis Air Force Base to accommodate heavy bombers is underway. A brand new Junior High School is to be completed next year where many of your younger brothers and sisters will attend.

The Faculty joins me in wishing you the best of health and happiness for the years ahead and hope sincerely that those things that you have learned on this day stand you in good stead when you pick up this book as young adults and reminisce of these pleasant years.

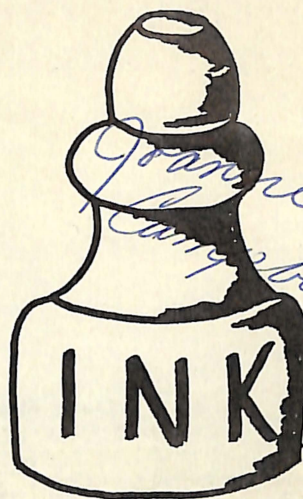

Sincerely,

WARREN K. WAITE  
Principal
